

KHANDAKER MANSURA

MERN Stack Developer | Dhaka, Bangladesh | iam.khmansura@yandex.com
<https://bd.linkedin.com/in/kh-mansura> | <https://github.com/KhMansura>

CAREER OBJECTIVE

Motivated Junior MERN Stack Developer with a foundation in React, JavaScript (ES6+), Node.js, Express.js, and MongoDB. Skilled in building responsive interfaces and authentication flows while eager to learn UI/UX, Agile practices, REST API integration, and deployment (Vercel/Netlify). Seeking opportunities to grow technical expertise and contribute to impactful full-stack projects.

PROJECTS

1. SweetsSlice | [Live Link](#) | [GitHub](#)

Sweets Slice is a delightful dessert e-commerce platform built to showcase and sell sweet treats online.

Unique features include:

- A visually engaging pastel-themed UI with responsive design and smooth navigation across devices.
- Dynamic product listing with cart integration, authentication flow, and protected dashboard routes for user management.
- Interactive sections like testimonials and category filters that enhance customer engagement and browsing experience.

Tools used: React, Tailwind CSS, DaisyUI, React Router, Firebase Authentication, and Vercel for deployment.

2. Toytopia | [Live Link](#) | [GitHub](#)

ToyTopia is a vibrant toy e-commerce platform designed to spark creativity, fun, and learning.

Unique features include:

- A playful purple-themed UI with responsive design and dark/light mode toggle.
- Dynamic routing with protected dashboard access and real-time cart updates.
- Engaging testimonial section and structured navigation for seamless user experience.

Tools used: React, Tailwind CSS, DaisyUI, React Router, Firebase Auth, and Netlify.
